## III. Project Three: Stock Exchange

The purpose of this project is to teach school students the values of investing and utilising the stock market. This project also teaches important lessons about the economy, mathematics and financial responsibility.

The basis of this project is to learn about the stock market while investing a specified

amount of fake money in certain stocks. Students then study the results and buy and sell

as they see fit.

This project will also guide the students and provide them with the supplies necessary to

successfully monitor stock market trends and will teach students how to calculate profit

and loss on stock.

The project work will enable the students to:

understand the topics like sources of business finance and capital market

understand the concepts used in stock exchange

inculcate the habit of watching business channels, reading business journals/newspapers and seeking information from their elders.
